ACADEMIC PROFILE

Pharmaceutical Chemist with academic and practical experience in regulatory affairs, pharmacovigilance, quality control, and scientific research. Currently studying English at Atlantis University and applying to a Master of Science in Artificial Intelligence to further strengthen my knowledge in emerging technologies and interdisciplinary innovation. My academic goal is to combine artificial intelligence with pharmaceutical sciences to contribute to process optimization, research advancement, and innovation in the pharmaceutical industry.

EDUCATION

- **Universidad El Bosque — Bachelor's Degree in Pharmaceutical Chemistry**
Bogotá, Colombia
January 2018 – February 2023
Degree evaluated by World Education Services (WES)
- **Atlantis University — ESL Program**
Miami, Florida, United States
May 2025 – Present

SELECTED EXPERIENCE
