

YAYA B SOW

Miami, FL | yaya.boubacarsow@atlantisuniversity.edu

RESEARCH & TECHNICAL PROFILE

Graduate AI researcher and systems professional bridging enterprise infrastructure, access control, and security automation. Background spans multi-system enterprise environments, credential management, and hands-on system administration. Currently building graduate-level expertise in artificial intelligence while preparing for CompTIA Security+ certification.

CORE COMPETENCIES & TECHNOLOGIES

- **AI & Security (In Progress):** Artificial Intelligence, Security Automation Concepts, CompTIA Security+
- **Identity & Access Management (IAM):** Active Directory, Azure Entra ID, Microsoft Intune, Imprivata, Single Sign-On (SSO), Microsoft Authenticator
- **Systems & Enterprise Infrastructure:** Windows Server (2016/2019/2022), Windows 10/11, Citrix Workspace, GlobalProtect VPN
- **Operations & Endpoint Management:** ServiceNow, Ivanti Service Manager, Spiceworks, Freshdesk, PDQ, ManageEngine
- **Networking & Protocols:** TCP/IP, DHCP, DNS, LAN/WAN, Wi-Fi

EDUCATION & ADVANCED STUDY

Master of Science in Artificial Intelligence | Atlantis University, Miami, FL
In Progress (Enrolled August 2026)

- **Target Thesis Focus:** AI Applications in Cybersecurity & Threat Automation

Bachelor of Science in Information Technology | Atlantis University, Miami, FL
Graduated

Associate of Science in Liberal Arts and General Science | Houston Community College, Houston, TX
Graduated

Associate in Finance Accounting | Sup-Management University
Graduated

Certifications in Progress:

- CompTIA Security+ (*Target Completion: February/2027*)

PROFESSIONAL EXPERIENCE

FUN FLORIDA LLC | Hollywood, FL

IT Support | 11/2023 – 07/2026

- Configured, deployed, and maintained workstations, software applications.
- Maintained 100% accurate hardware and software inventory records through systematic equipment tracking.
- Logged and resolved user support interactions in the enterprise ticketing system.
- Troubleshoot issues related to Microsoft 365.
- Deploy Servers and Workstations in Azure Cloud.
- Continuously update technical knowledge and skills to stay current with emerging technologies and best practices.

CYBERDENTAL CORP | Hialeah, FL

Help Desk Technician | 06/2024 – 03/2025

- Maintained network privacy and system security protocols across distributed dental networks and endpoints.
- Installed, configured, and managed specialized dental management and imaging (X-ray and 3D) software platforms.
- Scheduled and executed system upgrades and maintenance cycles during off-peak hours, ensuring zero interruption to daily clinical operations.
- Optimized local network performance and diagnosed connectivity issues across distributed client setups.
