

PERSONAL PROFILE

Architect and executive with over 20 years of experience leading projects in telecommunications, retail, and real estate. Specialist in oversight of construction finishes, budget management, and detailed monitoring of project schedules until the final delivery of the product. Has directed real estate operations at a national level, coordinated large-scale works, and negotiated strategic contracts with key suppliers and partners. Complements her technical profile with high-level training in business administration (MBA), which has provided her with advanced competencies in strategic direction, financial analysis, team management, investment evaluation, and organizational leadership. Her analytical focus, structural vision, and ability to integrate multidisciplinary teams allow her to navigate complex environments with high standards of quality, efficiency, and profitability.
